According to the National Education Association, “across race and place, educators, parents, and allies are coming together to ensure that every Black student and educator can live, grow, and thrive with support, love, and joy. The goal of Black Lives Matter at School is to spark an ongoing movement of critical reflection, honest conversation, impactful actions in school communities for people of all ages to engage with issues of racial justice.” Although as a system we are still striving every day, we are proud of our anti-racism and equity work at RAHS and support the work of our **Black Student Union** and other student organizations in bringing awareness and understanding to racial justice in schools.
